

Chain of Charity

*A Donation Client with Blockchain for
Transparency and Security*

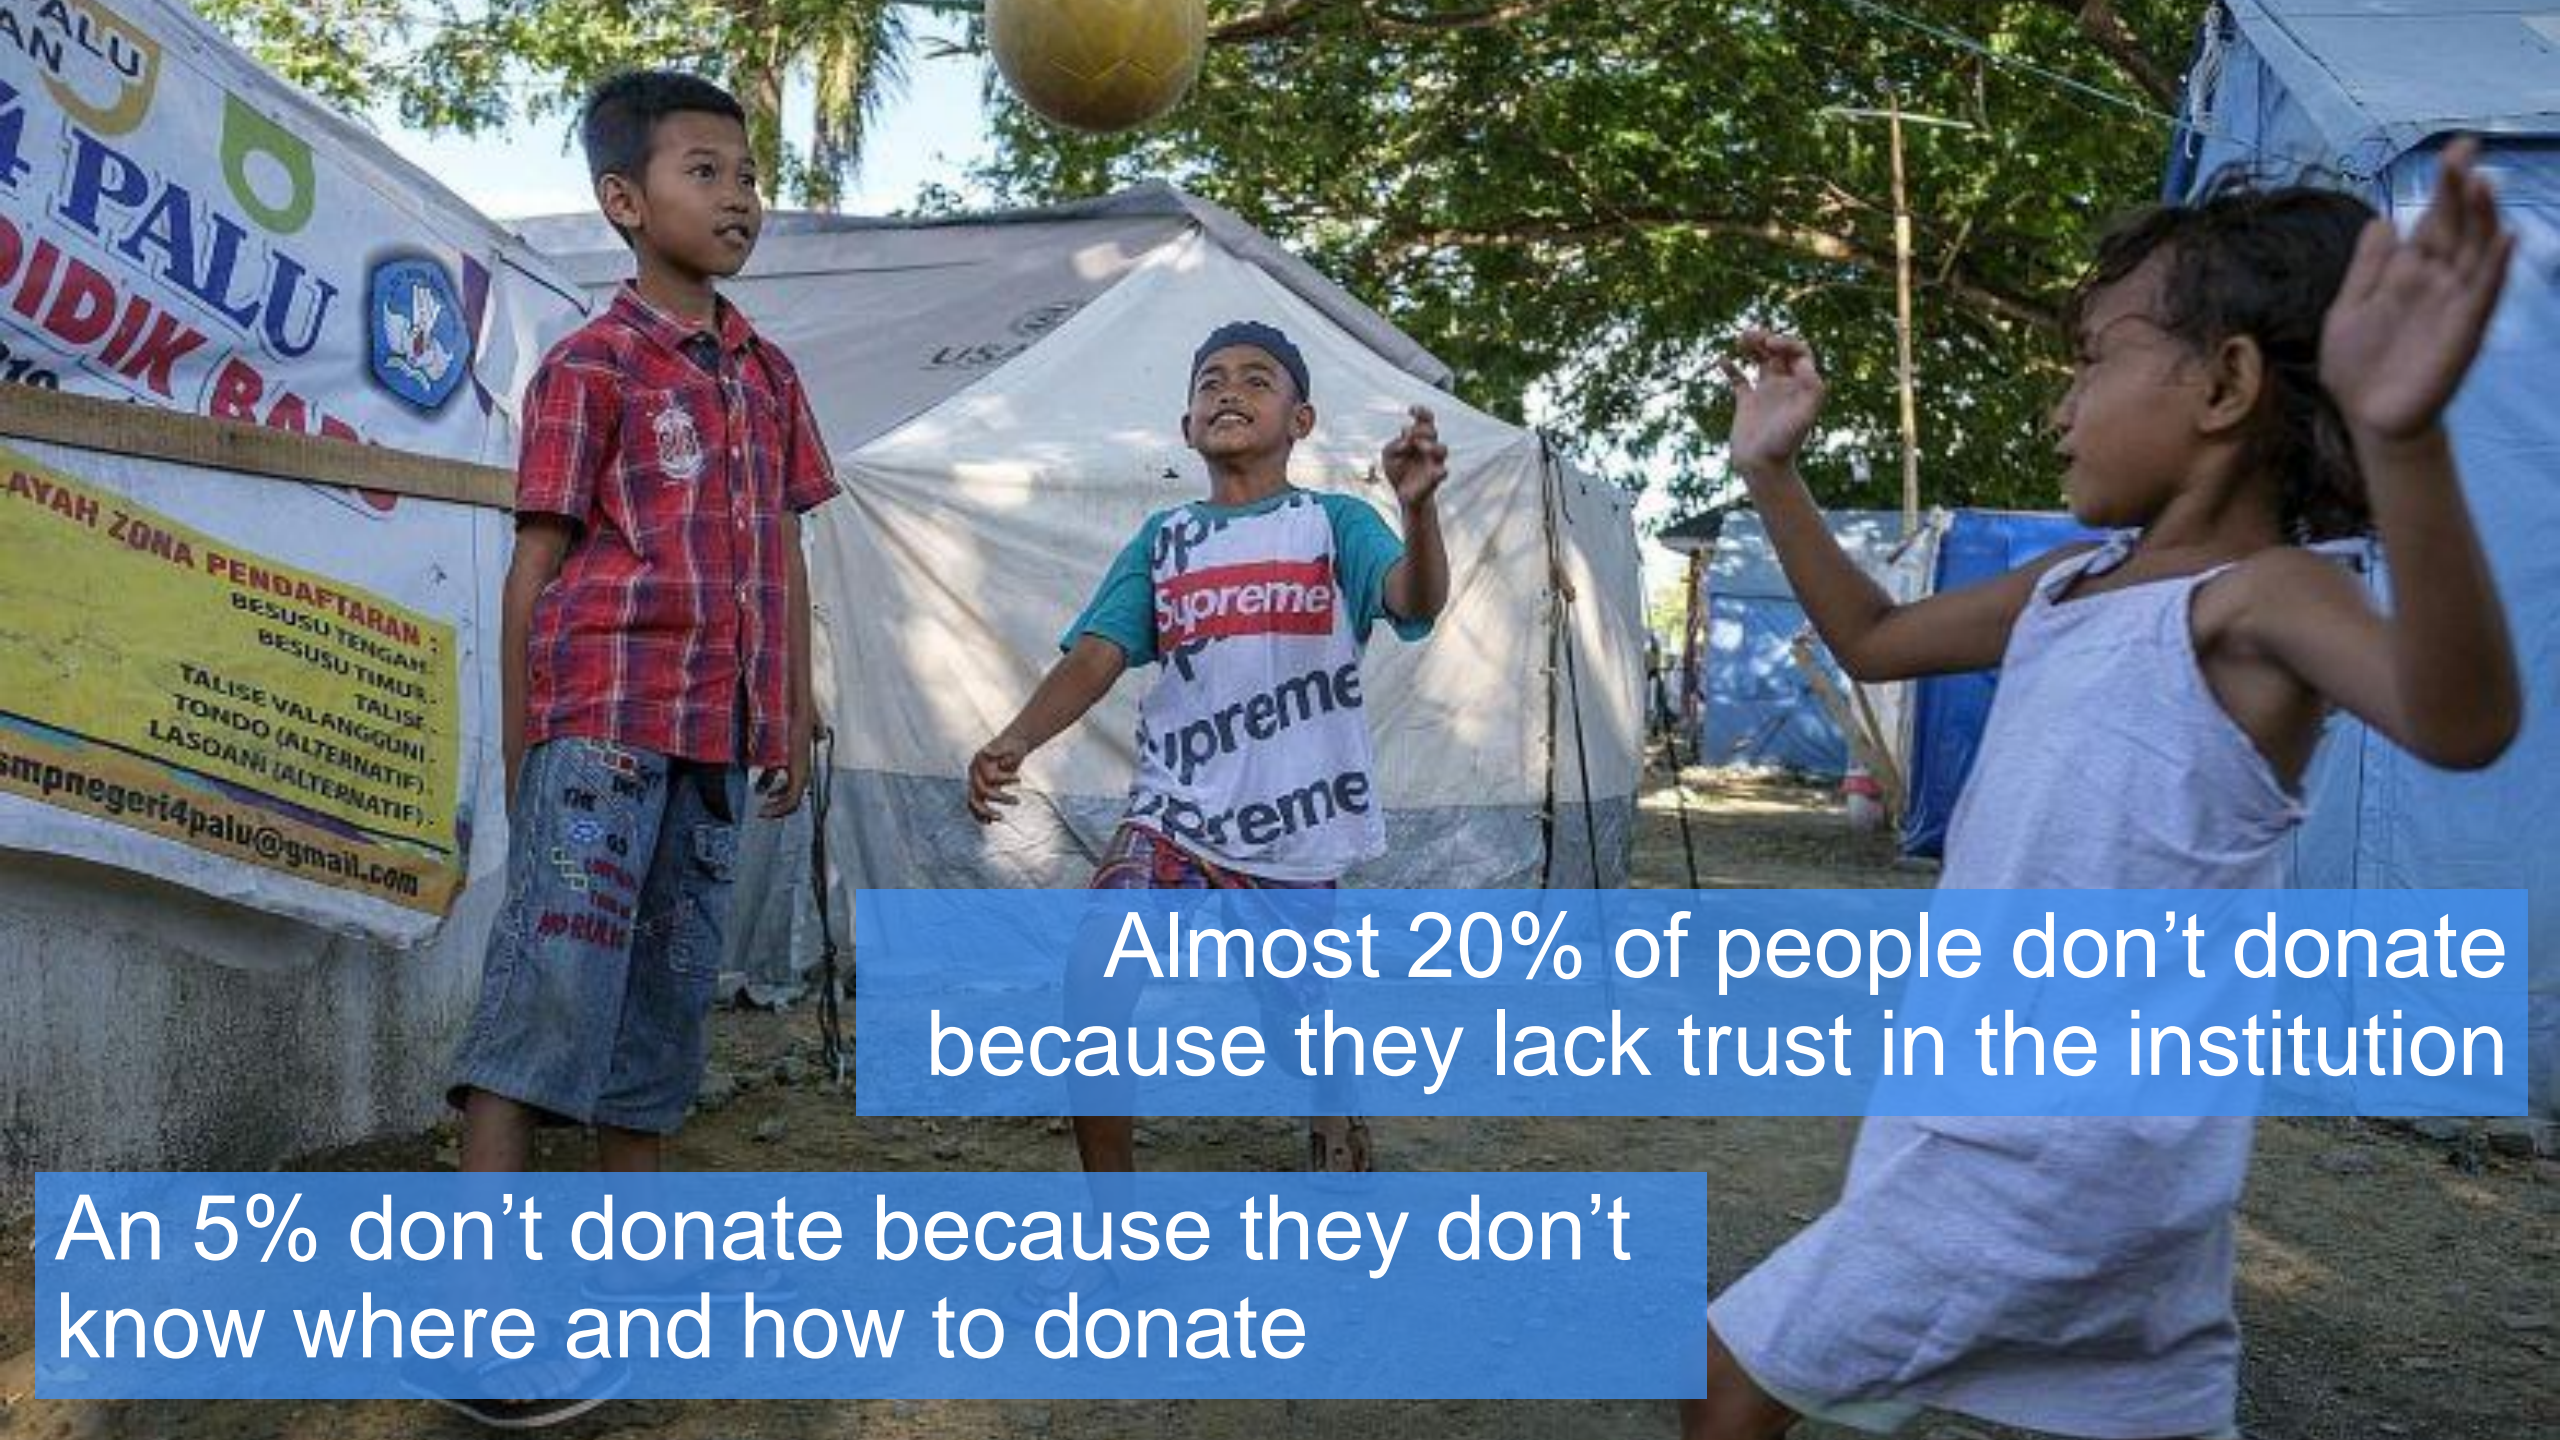

Did you know?

In Puerto Rico, an estimated **10,000** shipping containers full of donated food and water were never distributed to citizens following **Hurricane Maria**.

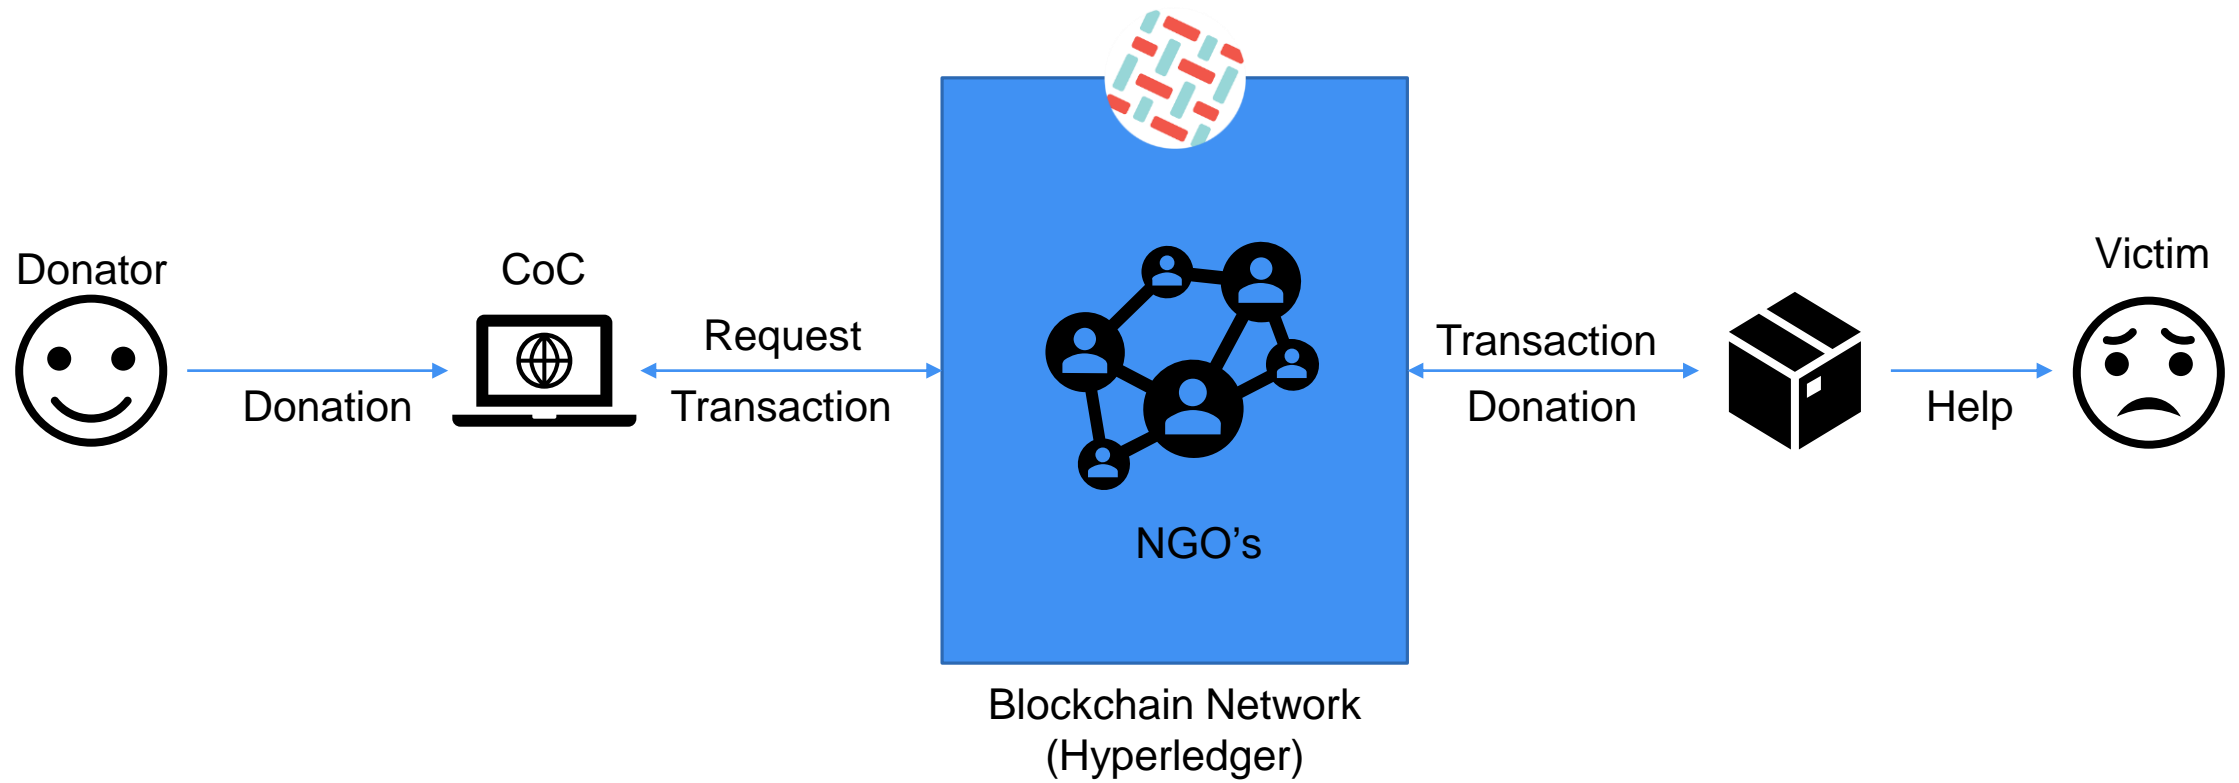

-npr

Federal Trade Commission (FTC) said donation fraud is estimated **\$187 million** before it was busted in 2015.

Almost 20% of people don't donate because they lack trust in the institution

An 5% don't donate because they don't know where and how to donate

The NGO members will pay a small membership fee for the operational costs.

Transactions won't be charged because we want the donations to be fully given to the victims.
